

CCI External Grant Research Proposal Development Form

Only External Funding and Grants

Proposal development is an important component of the research agenda for faculty, however proposals also have substantial implications for the Schools. This form should be completed and discussed with the Director of each CCI School listed in the proposal approximately 3-4 weeks before the submission due date, even if the budget is not yet known. The PI should update and resubmit the form as the budget is finalized or if there are changes in the scope or commitments for the School, so the Director(s) will be able to make timely approval decisions on the University of Tennessee's approval system (TERA-PAMS).

Proposal Title:	
Funding Agency:	
Estimated date for proposal approval in the UT-TERA-PAMS system (approximately 1 week before date due to funding agency):	
Date (today):	
Is this a	new form: revised form:
Principal Investigator(s):	
Other key CCI personnel (Co-PI, Sr. Personnel, etc.)	
Anticipated starting and ending dates if grant awarded:	
Abstract (please attach)	
Number of students	
# Tuition paid by grant:	# Tuition paid by Unit:
# Stipend paid by grant:	# Stipend paid by Unit:
List estimated percent effort individually for each CCI faculty or staff member involved in the proposal.	
Name:	% Salary Recovery
	% Match (cost-share)
	% Other (e.g., donated)
Name:	% Salary Recovery
	% Match (cost-share)
	% Other (e.g., donated)

Name:	% Salary Recovery
	% Match (cost-share)
	% Other (e.g., donated)
Other financial or space implications for each CCI unit	
	Estimated unit-provided costs in proposal. List all space, equipment, lecturers, travel expenses (e.g., cost share one trip for conference in year 1 and two trips in year 2).
	Estimated funding that comes to the unit to be requested in the proposal. List number of adjuncts, travel expenses, etc. for which funding is requested (e.g., Travel, \$26,000; Adjuncts, two in year 1; Adjuncts, one in year 2; Laptops for 10 scholarship students).
Estimated implications for each CCI unit's curriculum including new courses, new students, scheduling change of existing courses (e.g., 10 scholarship students will begin the program in summer and will require that core courses be taught in their first semester):	
Estimated implications for CCI and Schools (e.g., "The subject matter will enable the School to strengthen a specialty in STEM; the grant will build collaborations with ORNL, Y12, and University of New Mexico..."):
